✨ IT Engineer | Bound by Contracts, Freed by Challenges, Intensified by (AI) Companions. ✨

## Summary

Human engineer working in IT. I specialize in:

- AI agentic workflows: Pioneering production use of self-evolving autonomous AI agents.
- GitOps: Leading the implementation of Everything-as-Code for mission-critical operations.
- Cloud-Native: Building scalable, highly available infrastructure across cloud and bare metal.
- Open Source: Leveraging free software to maximize business value and digital sovereignty.
- Unified systems: Consolidating IT landscapes into simplified, performant ERP-centric systems.
- Hands-on Mentality: Applying the rigorous mindset of my mechanical engineering roots.

## Experience

✈ **Senior DevOps Engineer**  
WEALTHPILOT GMBH

01.01.2026 - 07.05.2026 (4 Months)

Munich, Germany

- Orchestrated HA Kubernetes clusters, achieving full operational autonomy and delivering the first production change within one week.
- Maintained 99.9%+ uptime via proactive SRE and led modernization and re-creation of the dev cluster.
- Architected a scalable self-service platform, migrating Ingress-Nginx to Traefik to streamline OAuth2-proxy and webhook integrations.
- Standardized GitOps and IaC via ArgoCD to eliminate drift and ensure consistency.
- Optimized CI/CD and image-building, migrating registries to Docker to improve deployment speed.
- Spearheaded AI initiatives, deploying local LLMs on GPU servers to accelerate AI transformation.

Hetzner Jira Confluence Bitbucket Bitwarden

🏢 **Senior DevOps Engineer**  
DEUTSCHE BANK AG

01.11.2023 - 31.12.2025 (2 years, 2 months)

Berlin, Germany

- Ensured the continuous availability of critical environments for Autobahn, Deutsche Bank's premier Foreign Exchange trading platform (<https://autobahn.db.com>).
- Migrated mission-critical environments to a hybrid cloud platform powered by Google Anthos (Kubernetes), enhancing infrastructure scalability and resilience.
- Operated across both DevOps and Tier 3 Support teams, simultaneously driving infrastructure automation while serving as the final point of escalation for complex technical issues.
- Directed the technical execution of high-profile client demonstrations globally, providing overnight coverage to ensure seamless showcasing across all time zones.
- Served as the On-Call Specialist for hybrid production environments, leveraging deep expertise in ArgoCD to manage GitOps workflows and ensure rapid recovery of live systems.

ServiceNow Bitbucket

🏢 **Systems Engineer**  
LEITZ GMBH & Co. KG

01.05.2021 - 31.10.2023 (2 years, 7 months)

Oberkochen, Germany

- Administered 75+ Linux servers (Ubuntu, Suse, RHEL) and 300+ VMs using XEN (Citrix Hypervisor, XCP-ng, Xen Orchestra).
- Supervised enterprise storage and backups, oversaw NetApp and TrueNAS systems, and solely implemented a new backup solution (Commvault).

- Maintained critical databases (Oracle, MSSQL) and managed hybrid infrastructure across on-premises and Azure.
- Led DevOps and automation initiatives using Git (and Gitea) and implemented key services like a company-wide password manager (Bitwarden).
- Advised on technical budgeting for infrastructure investments in the six-figure range.
- Monitored all services via Zabbix and provided Tier 3 technical support for internal IT.

Datacenter Xen NetApp Commvault Zabbix Ansible Disaster Recovery Azure NetBox Oracle Bitwarden

 **Technical Sales Engineer** 01.07.2019 - 30.04.2021 (1 year, 11 months)  
SP SÜDDEUTSCHE PRÜFANLAGEN GMBH Oberkochen, Germany

- Provided full-spectrum IT support and led data management and migration projects within the CRM system.
- Configured and calibrated universal testing machines, managing complex hardware and software integrations.
- Executed technical measurements and performed detailed evaluations of test results for industrial applications.
- Managed technical sales as a Key Account Manager, acting as the primary technical liaison for major clients.

IT management Sales CRM Key Account Management Presentation Cold Calling Networking C-level Executive Advisory

 **Project Engineer** 19.11.2018 - 14.05.2019 (7 months)  
SII TECHNOLOGIES GMBH Oberkochen, Germany

- Directed Change Management projects within the medical device sector, ensuring compliance with industry-specific quality standards.
- Consulted for Zeiss Meditec AG, managing project lifecycles and technical documentation for advanced medical technologies.
- Coordinated interdisciplinary teams, facilitating seamless communication between engineering, quality assurance, and production departments.

Change Management Project Management Technical Documentation Communication Coordinating

 **Industrial Design Engineer (Internship)** 18.06.2018 - 12.08.2018 (3 months)  
SHW WERKZEUGMASCHINEN GMBH Aalen, Germany

- Contributed to industrial design projects, applying engineering principles to optimize solutions for high-precision machine tools.
- Gained hands-on experience across the design lifecycle, bridging the gap between technical conceptualization and manufacturing.

CAD SolidWorks Industrial Design FEM

 **Tour Guide (Seasonal Student Job)** 2009 - 2018 (9 years, but only seasonal)  
STADT AALEN Aalen, Germany

- Conducted engaging, technical, and historical guided tours at the “Tiefer Stollen” visitor mine, tailoring complex information for diverse audiences.
- Coordinated group logistics and safety procedures for underground operations, ensuring a smooth and secure visitor experience.

Group Leading Tour Guiding Explaining complex topics

**Emerging Engineer** 01.04.2018 - 18.11.2018 (7 months)  
SELF Aalen, Germany

- Executed self-directed technical research focused on advanced engineering principles and the development of specialized IT skills.

## Projects & Associations

### AI-Plane

INNOVATION PROJECT

04.2026 - Present

Germany

- Cloud-native AI gateway utilizing Crossplane to dynamically provision GPU servers
- Deploys open-source LLMs via a web UI and exposes API access for developer integration
- Ensures complete data sovereignty by leveraging domestic German infrastructure
- Developed during “Innovation Days” to explore cutting-edge AI infrastructure

Crossplane LLM Data Sovereignty GPU Provisioning

### GitOps Bootstrapper

OPEN SOURCE

03.2026 - Present

GitHub

- Developed configurable wrapper scripts for provisioning end-to-end GitOps workflows
- Created a versatile toolkit suitable for local development testing and production cluster bootstrapping

GitOps Kubernetes Automation DevOps

## vCard.py

PERSONAL PROJECT

12.2025 - 02.2026

GitHub

- Built a Python-based vCard parser designed for versatile and efficient contact management
- Developed in collaboration with AI to optimize parsing logic and data handling

Python AI-Pair Programming Data Parsing

## Frappe Apps (multiple)

FULL-STACK DEVELOPMENT

2023 - 2024

GitHub

- Developed multiple full-stack applications using the Frappe open-source low-code framework
- Built solutions for sports performance tracking, media asset management, and job application workflows
- Demonstrated rapid prototyping and domain-driven design on a unified enterprise platform

Frappe Framework Python ERPNext Rapid Prototyping

## sshGraph

SECURITY TOOLING

04.2023 - 06.2023

GitHub

- Visualizes SSH trust relationships between machines and public keys to map infrastructure security
- Written in Python and packaged as a containerized application for easy deployment

Security Python Visualization SSH

## Timeupgrader

MOBILE DEVELOPMENT

07.2023 - 12.2023

GitHub

- Developed a native Android application in Kotlin for streamlined personal time tracking
- Implemented features allowing users to log and switch between different activities quickly

Android Kotlin Mobile UI Productivity

# Certificates & Awards

## Professional Cloud Architect

DEUTSCHE BANK & GOOGLE

2025

Online

- Acquired skills to design, develop, and manage robust, secure, and scalable cloud solution architectures based on business requirements.
- Completed alongside full-time employment in 12 weeks with an additional 10 hours of study per week.
- View Certification

GCP Cloud Architecture Security Scalability Infrastructure Design Google Cloud

## Associate Cloud Engineer

DEUTSCHE BANK & GOOGLE

2024

Online

- Learned to deploy applications, monitor operations, and manage enterprise solutions by configuring infrastructure and network services.
- Completed alongside full-time employment in 12 weeks with an additional 10 hours of study per week.
- View Certification

GCP Cloud Operations App Deployment Infrastructure Networking Monitoring

## NetApp Training

ADVANCED UNIBYTE ACADEMY

27.07.2021 – 29.07.2021

On-site

- Weekend on-site training, approximately 31 hours.
- NetApp Fundamentals, VServer + Network Resources, NFS VServer, CIFS VServer, SAN VServer, Storage Efficiency, Statistics, Backup.
- Website

Storage NetApp VServer NFS CIFS SAN Data Backup Infrastructure

## Soft Skills Courses (Student)

TU CHEMNITZ

2016 – 2017

Chemnitz, Germany

- Weekend courses (each 10 hours): Rhetoric, Time Management, Memory Training.

## • Website

Soft Skills Rhetoric Communication Time Management Efficiency Memory Training

### Fitness Trainer

ACADEMY OF SPORTS

2010 – 2011

Germany

- B-License: 14 weeks with on-site courses and thesis, around 115 hours.
- C-License: 12 weeks, around 75 hours.
- Course Details

Coaching Instruction Health Planning Thesis Writing Mentoring

### CCNA: Introduction to Networks

Cisco

2010

Online

- Completed an intensive 70-hour curriculum on network architecture and protocol management, mastering IP subnetting and OSI model analysis.
- Developed proficiency in Cisco CLI for configuring and verifying Ethernet networks, ensuring robust connectivity and security standards.
- View Course

Networking Cisco CCNA TCP/IP Subnetting OSI Model CLI Ethernet

## Education

### Master of Science in Mechanical Engineering

CHEMNITZ UNIVERSITY OF TECHNOLOGY

10.2014 - 03.2018

Chemnitz, Germany

- Profile: Applied Mechanics and Thermodynamics
- Thesis: Simulation and Optimization of Flow Transition from a Coaxial Connector to a Hydraulic Cylinder Considering Pressure Conditions
- Main Internship: Simulation of a centrifugal separator at Suvis GmbH (21 weeks)
- General Studies: Numerical Mathematics, Heat Transfer, Emotional Psychology

Mechanical Engineering Applied Mechanics Thermodynamics Flow Simulation Optimization Numerical Mathematics Heat Transfer

CFD

### Bachelor of Science in Mechanical & Sports

Engineering

CHEMNITZ UNIVERSITY OF TECHNOLOGY

10.2010 - 09.2014

Chemnitz, Germany

- Dual Enrollment in Mechanical Engineering and Sports Engineering
- Thesis: Strength calculations and optimization of a crank at the Institute for Construction Design and Drive Technology
- Internships: MAPAL KG and Funk Eisengießerei GmbH in Aalen
- Core Subjects: Technical Mechanics, Thermodynamics, Computer Science, Fluid Mechanics

Mechanical Engineering Sports Engineering Technical Mechanics Fluid Mechanics Strength Calculation Construction Design

Drive Technology

### High School Diploma (Abitur)

TECHNISCHE SCHULE AALEN

08.2007 - 07.2010

Aalen, Germany

- Profile: Computer Science
- Courses: Foundations of IT, Operating Systems, Databases, Object-Oriented Programming, Data Structures, Algorithms, Microprocessors, Hardware Programming

Computer Science IT Foundations OOP Data Structures Algorithms Databases Hardware Programming Microprocessors

### Secondary School (Realschulabschluss)

KARL-KESSLER-REALSCHULE

09.2001 - 07.2007

Aalen, Germany

- Successfully progressed from Realschule to higher technical education, establishing a foundation for university engineering studies

Secondary Education Pathfinding

## Languages

Proficiency levels are provided in accordance with the Common European Framework of Reference for Languages (CEFR) and a five-point competency scale.

A1

## Driving Licenses

B (Car)

A (Bike)

BE (Trailer)

## Volunteering

### Private Support Member

OPEN SOURCE BUSINESS ALLIANCE

09.2024 – Present

Berlin, Germany

- Supporting the promotion of open-source software and digital sovereignty in business and public administration.

Open Source Digital Sovereignty Public Administration Advocacy IT Policy

### Youth Leader in Chess

SCHACHVEREIN AALEN E.V.

09.2017 – 10.2023

Aalen, Germany

- Managed youth programs and coordinated training sessions, fostering strategic thinking and competitive discipline in young players.

Leadership Mentoring Strategic Thinking Education Youth Development Event Planning

### Youth Coach in Gymnastics

AALENER SPORTALLIANZ E.V.

01.2020 – 10.2023

Aalen, Germany

- Organized and led training sessions for youth groups, focusing on physical development, teamwork, and safety protocols.

Coaching Teamwork Safety Management Physical Education Group Leadership

### Member of the District Executive Board

POLITICAL PARTY (FDP)

11.2019 – 10.2023

Ostalbkreis, Germany

- Contributed to regional organizational strategy and decision-making processes.

Strategy Decision Making Organizational Leadership Public Relations Regional Planning
